

QUIET CHECK VALVES

Liberty Pumps[®]

A Family and Employee Owned Company

Quiet Check Valves

QCV150 1-1/2"

QCV200 2"

- Socket weld connection with threaded union
- Heavy-duty PVC
- Angled seat reduces "water hammer" effect
- 150 PSI rated at 72°F
- Vertical or horizontal installation
- Less friction and easier pumping due to full port design

Quiet Ball/Check/Union Combo

QBCV150C 1-1/2"

QBCV200C 2"

- Compression style connection
- In-line shut off and back flow prevention combination
- Heavy-duty PVC
- Angled seat reduces "water hammer" effect and flow reversal
- 150 PSI rated at 72°F
- Vertical or horizontal installation
- Less friction and easier pumping due to full port design

Clear Quiet Check Valves

QCV150C-CL 1-1/2"

QCV200C-CL 2"

- Compression style connections
- Heavy-duty clear PVC
- Angled seat reduces "water hammer" effect
- 150 PSI rated at 72°F
- Vertical or horizontal installation
- Less friction and easier pumping due to full port design
